INSTRUCTIONS

1. Use a pen to trace on your NCR pattern or use thickened Licorice to apply silkscreen.
2. Paint the child's hand with a heavy layer of Kiwi and press onto the center of the dinosaur's back. Repeat for as many as will fit.
3. Paint 3 coats of Kiwi to the rest of the dinosaur, leaving a little space around the hand prints.
4. Create the ground by painting 3 layers of Mocha Java to the plate.
5. Paint one messy layer of Sky Blue to the rest of the background, working around the handprints and dinosaur.
6. If you used a NCR pattern to trace on your dinosaur, use your liner brush to apply one layer of Licorice to the lines and face.
7. Finally, stamp on your letters using a sponge dabber to apply a thin layer of black to the letter before immediately pressing it down onto the plate.

TIPS

- When applying the pattern, make sure the color underneath is dry.
- Press down firmly to make sure it's transferring.
- Always peel the paper back to make sure you've transferred before removing.
- When outlining with a liner brush, hold the brush straight up and down to get thinner lines, and press down for thicker lines.
- Use a thin layer of paint sponged onto the stamps for the best results.
